

# University of New England 2023/2024 Catalog Addendum

The following content does not appear in the 2023/2024 Academic Catalog, but is valid for the 2023/2024 academic year.

## Contents

What is an Addendum?.....	2
Academic Program Information.....	3
Undergraduate Catalog.....	3
Bachelor of Science in Aquaculture, Aquarium Science, and Aquaponics.....	3
Bachelor of Arts in Applied Social and Cultural Studies.....	5
Bachelor of Science in Nursing (4 Year Program) .....	7
Graduate Catalog .....	9
Master of Science in Applied Nutrition.....	9

## What is an Addendum?

The University of the New England (UNE) publishes a full Catalog every year. The Addendum contains important information that has been updated throughout the past year.

The following question and answer section is designed to respond to common questions about how to use this important document. As always, it is recommended that students seek the guidance of Academic Advisors for course and program planning. In this way, you will be able to access all the most up-to-date information available.

### **Q. Why do we have an Addendum?**

A. UNE publishes an addendum to accommodate new programs introduced by the College of Professional Studies; to correct inaccuracies in the current published academic catalog; to accommodate mid-year federal/state regulatory updates/changes; update changes to university published policy; or to accommodate changes to University or Program accreditation.

### **Q. How do I use the Addendum?**

A. The Addendum is to be used alongside the academic catalog, not in isolation. Check your program and course of interest to see if there have been any changes. Meet with your Academic Advisor if you have questions about how these changes affect your academic plan.

### **Q. Does the Addendum supersede the Catalog?**

A. The Addendum is just that: an addition to the Academic Catalog. Whatever is listed in the Addendum in terms of new courses and/or new program requirements, federal/state regulations, University policy, or Accreditation status does supersede what is in the Catalog. However, in terms of Catalog rights, if you began a program in Fall 2023 or Spring 2024, you will be able to adhere to the requirements listed in the 2023-2024 Catalog as long as you have no break in enrollment until the time of your completion. Once again, if you have questions about programs and courses, see an Academic Advisor.

### **Q. Where can I find the Addendum?**

A. The Addendum is on the web and can be accessed from Office of the Registrar site at [www.une.edu](http://www.une.edu). We hope this document will be helpful to you. It has been prepared as carefully as possible to include all information available as of October 15, 2023. UNE reserves the right to make changes as needs require, and to change, without notice, any of the information, requirements, and regulations in the Academic Catalog and the Addendum. If you have questions about the content or any other part of this document, please contact the University Registrar's Office at 207-602-2473 or 207-221-4245 or [uneregistrar@une.edu](mailto:uneregistrar@une.edu).

## Academic Program Information

### Undergraduate Catalog

#### *Bachelor of Science in Aquaculture, Aquarium Science, and Aquaponics*

##### Curricular Requirements

CAS Core Requirements	Credits
Total Credits	42–46

Program Required Courses	Credits
BIO 214/214L – Genetics w/Lab	4
BIO 221 – Principles of Aquaculture	3
BIO 222/222L – Finfish/Shellfish Culture Tech w/Lab	4
BIO 223/223L – Hlth, Nutr, Feed Cultured Org w/Lab	4
BIO 234/234L – Environmental Microbiology w/Lab	4
BIO 323/323L – Aquarium Science and Operations w/Lab	4
BUMG 313 – Social Innovation and Entrepreneurship <i>or</i> BUMK 312 – Entrepreneurship/Sml Business	3
CHE 130/130L – Principles of Chemistry w/Lab <i>or</i> CHE 150/150L – University General Chem I w/Lab <i>or</i> CHE 110/110L – General Chemistry I w/Lab	4
GIS 161 – GIS I: Fundamentals of Geospatial Science and Technology	3
MAR 105/105L – Ecology and Evolution of Marine Organisms w/Lab	4
MAR 106/106L – Cellular and Molecular Biology of Marine Organisms w/Lab	4
MAR 150/150L – Discovering the Ocean Environment w/Lab <i>or</i> MAR 270/270L – Oceanography w/Lab	4
MAR 235 – Sustainable Harvest of Aquatic Organisms	3
MAR 250/250L – Marine Biology w/Lab	4
MAR 305/305L – Aquatic Health Management w/Lab	4
MAR 495 – Adv Marine Science Internship	4
MAT 150 – Statistics for Life Sciences	3
One (1) course Cellular and Molecular Biology Topic Area Course <i>or</i> Physiology Topic Area Course <i>or</i> Ecology/Evolutionary Biology Topic Area Course	3–4
Total Credits	62–63

Minimum Total Required Credits	120
--------------------------------	-----

Topic area program required courses are to be selected in consultation with advisor.

#### TOPIC AREA COURSES

##### Cellular and Molecular Biology

Cellular and Molecular Biology Area Courses	Credits
BIO 203 – Histology	4
BIO 290 may fulfill Biology Area requirements depending on the subject matter and advisor permission.	3
BIO 365 – Immunology	3
BIO 370 – Cell and Molecular Biology	3

## Physiology

Physiology Area Courses	Credits
BIO 208 – Anatomy and Physiology	4
BIO 245 – Anatomy, Physiology, and Pathophysiology	4
BIO 290 may fulfill Biology Area requirements depending on the subject matter and advisor permission.	3
BIO 322 – Comparative Animal Physiology	3
BIO 404 – Neuroscience	4
MAR 326 – Experimental Animal Physiology	3
MAR 424 – Physiological Ecology of Fish	4

## Ecology/Evolutionary Biology

Ecology/Evolutionary Biology Topic Area Course	Credits
BIO 290 may fulfill Biology Area requirements depending on the subject matter and advisor permission.	3
BIO 307 – Conservation Genetics	3
BIO 328 – Human Evolution	3
BIO 333 – Evolution	3
BIO 350 – Ecology	4
MAR 335 – Animal/Behavioral Ecology	4

## RECOMMENDED ELECTIVE CREDITS (NOT REQUIRED)

- MAF 200 – Intro to Marine Pollution
- MAF 210 – Intro to US Ocean Governance
- MAR 316 – Science in Society
- MAR 414 – Ocean Food Systems Seminar
- PHI 201 – Bio-Medical Ethics

## GRADUATION REQUIREMENTS

A minimum grade of C- must be achieved in all science and mathematics courses used toward graduation in any of the programs in the School of Marine and Environmental Programs. A 2.00 cumulative average in sciences is a requirement for graduation in any of the programs in the School of Marine and Environmental Programs.

Students in this major can participate in the [pre-health graduate school preparation tracks](#).

## *Bachelor of Arts in Applied Social and Cultural Studies*

### Curricular Requirements

CAS Core Requirements	Credits
Total Credits	42–46

ASCL Fundamental Requirements	Credits
SOC 268 – Practice of Social Research	3
SOC 270 – Classical Social Theory <i>or</i> SOC 280 – Contemporary Social Theory	3
SOC 300 – Internship	3
SOC 370 – Applied Field Methods	3

ASCL Fundamental Requirements: Choose three (3)	Credits
ANT 102 – Cultural Anthropology	3
SOC 150 – Introduction to Sociology	3
PSY 105 – Introduction to Psychology	3
PSC 105 – Introduction to Political Science	3

Additional Requirements	Credits
Applied Capstone Experience*	9–16
Concentration Credits**	12
Total Credits in Major	42–49
Open Electives (needed to reach 120 credits)	Variable

Minimum Total Required Credits	120
--------------------------------	-----

#### \*APPLIED CAPSTONE EXPERIENCES (ACE)

##### Internship

Students may take between 9 and 16 credits to complete this ACE. Students may select from over 750 sites in the Civic Engagement database. This learning opportunity should parallel the student's concentration and help him/her to gain experience, skills, and knowledge of how systems work and how to develop contacts in a given field.

##### Thesis

Students may take between 9 and 16 credits to complete this ACE. The thesis should build on the work the student has done in the ASCS major and his/her chosen concentration. This academic work should prepare them for graduate study in disciplines that have been incorporated into their concentration.

##### Study Abroad

Students will typically take 15–16 credits to complete a study abroad experience. While studying in a foreign society and culture is important, the primary focus is to take courses from the new institution that will help the student to develop his/her areas of interest as it relates to the major. In short, there needs to be an integrated social science experience that drives the study abroad learning as well as the

opportunity to explore a new society and culture for this to be a successful experience. All study abroad experiences should first be cleared with the Academic Director, to see if they qualify to meet the requirement for the Capstone.

#### \*\*APPLIED CONCENTRATION

There are three concentrations in the ASCS major: Health, Medicine, and Society; Society, Human Services, and Community; and Law, Crime, and Society. As soon as possible after arriving at UNE students should declare their major. By the end of their second-year students should declare their concentration. There are no required courses in any concentration. In each concentration students, in consultation with their advisor, choose four courses from a variety of disciplines that will help them build foundations, skills, and develop expertise in their chosen concentration.

##### Health, Medicine, and Society

Sample courses include (but are not limited to)

ANT 211 – Medical Anthropology  
SOC 228 – The Sociology of Aging  
SOC 275 – The Sociology of Food and Health  
SOC 355 – Medical Sociology  
PSY 235 – Health Psychology  
PSC 325 – Politics and Public Health

##### Society, Human Services, and Community

Sample courses include (but are not limited to)

SOC 215 – Poverty  
SOC 320 – Community Organization  
SOC 460 – Social Policy and Planning  
SOC 480 – The Family  
PSY 236 – Mental Health and Society  
PSY 370 – Drugs, Society, and Behavior

##### Law, Crime, and Society

Sample courses include (but are not limited to)

ANT 224 – Forensic Anthropology and Human Rights  
SOC 170 – Deviance and Crime  
SOC 333 – Sociology of Law  
SOC 421 – A Just Society?  
PSY 252 – Forensic Psychology  
PSY 255 or 255G – Social Psychology  
CMM 411 – Communication, Law, and Regulation

Students in this major can participate in the [pre-health graduate school preparation tracks](#).

## *Bachelor of Science in Nursing (4 Year Program)*

### Curricular Requirements

	Credits
WCHP Core Requirements	
BIO 104/104L – General Biology with Lab	4
BIO 208/208L – Introduction to Anatomy and Physiology I with Lab	4
BIO 209/209L or 209G/209LG – Introduction to Anatomy and Physiology II with Lab	4
BIO 242/242L or 242G/242LG – Applied Microbiology with Lab	4
BIO 309 – Pathophysiology	3
CHE 130/130L – Principles of Chemistry with Lab	4
ENG 110 – English Composition	4
IHS 130 – Interprofessional First-Year Experience	3
IHS 310 – Ethics for Interprofessional Practice	3
MAT 120 – Statistics	3
NUTR 220 - Nutrition	3
PSY 105 – Introduction to Psychology	3
PSY 250 – Lifespan Development	3
SOC 150 – Introduction to Sociology	3
One (1) ART (ART, ARH, MUS) Course	3
One (1) EXP (Explorations) Course	3
One (1) Human Traditions Course (276 or 278 with one of the following prefix: ARH, ENG, HIS, LIL, PHI, PSC, REL)	3
General Elective	3
Total	60

	Credits
Nursing Required Courses	
NSG 103 - Essentials in Nursing Knowledge and Practice	2
NSG 202 – Introduction to Nursing	3
NSG 307 – Adult Health I/Clin	6
NSG 315 – Adult Health II/Clin	7
NSG 327 – Health Assessment	3
NSG 328 – Mental Health/Clin	4
NSG 332 – Evidence-Based Practice (EBP) I	2
NSG 342 – Pharmacology	3
NSG 351 – Integrating Experience I	1
NSG 456 – Adult Health III/Clin/Preceptorship	9
NSG 409 – Adult Health IV	3
NSG 420 – Community and Public Health Nursing	3
NSG 424 – Maternal/Child/Clin	8
NSG 432 – Evidence-based Practice (EBP) II	2
NSG 442 – Integrating Experience III	1
NSG 445 – Leadership	2
NSG 447 – Transitions to Practice	2
Total Nursing Curriculum Credits	61

Minimum Total Required Credits	121
--------------------------------	-----

#### GRADUATION REQUIREMENTS

A student in the nursing major may elect to pursue a bachelor's degree in health sciences. This degree is only open to matriculated students at the University of New England. Special permission from the student's advisor and the Dean of the Westbrook College of Health Professions is required for enrollment in the B.S. in Health Sciences.

## Graduate Catalog

### *Master of Science in Applied Nutrition*

#### Accreditation

#### REGIONAL ACCREDITATION

All programs at the University of New England are accredited by the New England Commission of Higher Education (NECHE).

#### SPECIALIZED ACCREDITATION

The University of New England Master of Science in Applied Nutrition, Dietetics focus is Fully Accredited by the Accreditation Council for Education (ACEND) in Nutrition and Dietetics of the Academy of Nutrition and Dietetics, 120 South Riverside Plaza, Suite 2190, Chicago, IL 60606-6995, (312) 899-0040 ext. 5400. <https://www.eatrightpro.org/ACEND>

Effective January 1, 2024, the Commission on Dietetic Registration (CDR) will require a minimum of a master's degree to be eligible to take the credentialing exam to become a registered dietitian nutritionist (RDN). In order to be approved for registration examination eligibility with a bachelor's degree, an individual must meet all eligibility requirements and be submitted into CDR's Registration Eligibility Processing System (REPS) before 12:00 midnight Central Time, December 31, 2023. For more information about this requirement visit CDR's website: <https://www.cdrnet.org/graduatedegree>.

In addition, CDR requires that individuals complete coursework and supervised practice in program(s) accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). Graduates who successfully complete the ACEND-accredited graduate program of Master of Science in Applied Nutrition, Dietetics Focus at The University of New England are eligible to apply to take the CDR credentialing exam to become an RDN. In most states, graduates also must obtain licensure or certification to practice.
