ABOUT THE UNIVERSITY OF NEW ENGLAND

The University of New England is Maine's largest private university, with two beautiful coastal campuses in Maine, a one-of-a-kind study-abroad campus in Tangier, Morocco, and an array of flexible online offerings. In an uncommonly welcoming and supportive community, we offer hands-on learning, empowering students to make a positive impact in a world full of challenges. We are the state's top provider of health professionals and home to Maine's only medical and dental colleges, a variety of other interprofessionally aligned health care programs, and nationally recognized programs in the marine sciences, the natural and social sciences, business, the humanities, and the arts. Visit www.une.edu.

COLLEGE OF ARTS AND SCIENCES

The UNE College of Arts and Sciences offers a broad spectrum of academic programs in the tradition of a liberal arts education. Each of our majors promotes knowledge and understanding of the world and provides perspectives on issues from multiple viewpoints. Students actively explore both the natural and social worlds through a broad-based mode of inquiry that fosters empathy and understanding. This pursuit of knowledge and caring for the world is at the center of the mission of the College of Arts and Sciences and prepares graduates for a rewarding, productive life, as well as for career or graduate school success.

The excellence of our faculty combined with our unique location on the southern Maine coast provides the setting for a compelling learning environment. Across our undergraduate degree programs and in select graduate programs, we pride ourselves on high-quality teaching in classes that provide opportunities for frequent, personal student-faculty interactions. We also believe deeply in research, creative expression, internships, and study abroad, as these experiences embody the ideal of a college education.

UNE College of Arts and Sciences students graduate as intellectually engaged, globally aware, creative, and civically and environmentally responsible individuals who apply their education as a gateway to unyielding inquiry, professional achievement, and lifelong learning.

THE POMP BEHIND THE CIRCUMSTANCE

Academic Regalia

THE GOWN

The history of the academic gown goes back to the 12th century. During this period, everyone — both men and women, royalty, lay folk, clerics, tradesmen, students — wore long flowing robes. The apparel varied in elegance according to the rank and wealth of the owner, from simple rough worsteds to rich gold brocades wrought with tassels and trimmed with colorful velvet and rich furs. It was in this period that the first organized bodies of learning were formed. From the gowns worn in the “universities” of the period have evolved the academic costumes of today.

The bachelor’s gown is a simple design falling straight from a rather elaborate yoke with long pointed sleeves. The gown worn by a master has long, closed, somewhat fuller sleeves, which reach nearly to the wearer’s knees. The arms go through slits at the elbow, giving the appearance of short sleeves. The doctoral gown is cut much fuller and has large bell-shaped sleeves. The gowns are usually, but not always, black, and those of bachelors and masters are generally devoid of ornamentation. The doctoral gowns are distinguished by the five-inch velvet panel around the neck and down both sides of the front as well as by three-inch velvet bars sewn on each sleeve.

The color of the velvet trim may be black or may indicate the nature of the degree. For example, the color designating a Doctor of Philosophy is dark blue; a Doctor of Medicine, green; a Doctor of Education, light blue; a Doctor of Science, golden yellow; a Doctor of Humanities, white; a Doctor of Law, purple.

THE HOOD

The hood seems to have had a somewhat practical origin. Medieval monks used their hood for two purposes: to protect their shaved heads in the winter and as a container in which to collect alms.

Today, the hood serves as the most symbolic part of the academic regalia by which the observer can ascertain the wearer’s level and kind of degree. The bachelor’s hood is the smallest, being three feet long. The velvet trim along the edges, indicating the nature of the degree, is two inches wide. The master’s hood is six inches longer and bears a three-inch velvet trim.

The doctoral hood is a full four feet long and exhibits a five-inch velvet trim, indicating the nature of the degree.

The colorful interior of the hood, visible from behind, indicates by hue the degree-granting institution. The University of New England’s colors are blue and grey.

THE CORDS AND STOLES

The cord in graduation ceremonies is used to signify a special designation or membership in an honor society. The origin of the cord is from the Catholic and Anglican churches, where cords were used to distinguish between the varying levels of clergy members.

Academic Honors

Undergraduate students graduating with academic honors will be recognized for their academic excellence by cords of different colors draped around their necks: summa cum laude (gold), magna cum laude (blue), cum laude (silver).

College of Arts and Sciences Undergraduate Honors Program

The CAS Honors Program provides high-performing students with firsthand exposure to scholarship and research. Students apply to the program and then complete and publicly defend a research-based honors thesis. They will be recognized by a solid red cord.

Military Service Honors

The University is proud to recognize students serving or who have served in the various military branches of the United States of America. Graduating students currently serving in the U.S. military and veterans will be recognized by a red, white, and blue cord.

Academic Honor Societies

Alpha Chi (National Honor Society), white stole with blue and green Greek letters; Chi Alpha Sigma (National College Athlete Honor Society), black/gold cord with tassels; Phi Alpha Theta (History), red/blue cord with mixed tassels; Psi Chi (Psychology), insignia pin, platinum/dark blue cord with mixed tassels.

Global Education

The Office of Global Education recognizes students who have studied abroad as part of a UNE program for one semester or more with a stole that is reflective of the flag of the country in which the student studied.

ISE Student Leaders

The Office of Intercultural Student Engagement honors student leaders who have worked to advance knowledge of cultural diversity and social justice. These students have served as officers of an organization in the Cultural Council or a University committee and will be recognized by a distinctive kente stole.

CLASS OF 2024 ADDRESS
KAYLEE EMERY
Medical Biology-Medical Sciences '23

The Jacques Downs Award is an honor bestowed upon the most accomplished graduating senior in the College of Arts and Sciences. Students are nominated for this award by UNE faculty and professional staff based on the student's academic achievements, scholarly work, and service/contributions to University life during their UNE career.

The 2024 recipient of the award is Kaylee Emery from Fryeburg, Maine.

Kaylee graduated from UNE in December 2023 with a major in Medical Biology-Medical Sciences and a minor in Health, Medicine, and Society. Along with her academic prowess, demonstrated by her Alpha Chi membership, Kaylee became an integral member of the Student Academic Success Center beginning in her first year, where she maintained a constant, helpful presence at the reception desk. She excelled as a peer tutor for the center, completing the Advanced Tutor certification and continuing on the path toward Master Tutor certification. Through her patient and intuitive approach, she quickly became an in-demand tutor, providing guidance and encouragement to many students. Beyond Kaylee's classroom and tutoring duties, she served as treasurer for the Student Philanthropy Association, organizing fundraisers for yearly student scholarships. She has also been an orientation ambassador for The Dempsey Center, helped organize fundraising for a PULSE: UNE Medical Missions trip to Costa Rica to benefit the Foundation for International Medical Relief for Children, and been a volunteer for the Hunger Initiative. Both on campus and off, she has applied her education to improve the community around her. The UNE Community is richer because of Kaylee's many contributions, and we wish her all the best in her future endeavors.

Congratulations to Kaylee and the entire Class of 2024!

FACULTY SPEAKER
DANIEL P. WELLER, Ph.D.
Assistant Teaching Professor of Physics

The Debra J. Summers Award for Teaching Excellence was created by students and named for a former Business Department faculty member. The yearly award is given by the Undergraduate Student Government (USG) to a professor who has inspired and motivated students to reach their full potential.

The 2024 recipient is Daniel Weller, Ph.D., from the School of Mathematical and Physical Sciences.

Weller arrived at UNE in January 2022 as a Visiting Assistant Teaching Professor of Physics and joined the permanent faculty in Fall 2023. While his primary role involves teaching in the introductory physics curriculum, Weller has also applied his background in materials science and engineering to teach a popular interdisciplinary course on the impact of STEM in sports. In all cases, Weller utilizes a student-centered approach fueled by his passion for physics education to create a dynamic classroom focused on hands-on student learning. He established a learning assistant program for the physics curriculum that infuses upper-year students into the learning environment and has continued with his own professional development, earning his M.S.Ed. from UNE in 2023, specializing in online instruction and curriculum design. Beyond being a powerful force in the classroom, Weller's electric persona has made him a magnet for student-related activities since his arrival at UNE, including serving as a member of the College of Arts and Sciences Faculty Assembly Student Affairs Committee, Faculty Advisor for the UNE Giving Tree Society, the Men's Club Volleyball Coach, and none other than Stormin' Norman himself. Weller's enthusiasm, passion for teaching and learning, and supporting students both in and out of the classroom have all contributed to his positive rapport with students and his reputation as a teacher. You might even say that he "puts the 'phun' in physics." Congratulations, Professor Weller!

CONGRATULATIONS ON YOUR ACCOMPLISHMENTS

When you graduate from UNE, you will join an alumni community of more than 23,000 UNE, St. Francis College, and Westbrook College graduates around the world. The Office of Alumni Advancement creates and supports ways for you to connect with other alumni and continue moving forward after you've earned your degree. Connect instantly with hundreds of your fellow alums on Facebook and LinkedIn. Network with other leaders in your profession at alumni events throughout the year. Keep up to date on important developments in your program when you receive communications from the Alumni Office.

Stay in touch and share with us your story of what's next!
