SEMINAR SERIES

Amgen Drug Discovery

David Matson, M.S.
Department of Neuroscience
Amgen, Inc.

Zaven Kaprielian, Ph.D.
Department of Neuroscience
Amgen, Inc.

Thursday, August 6th 2015
12:00-1:00 p.m.

Alfond 304
Biddeford Campus

Lunch will be Provided

Hosted by: Edward Bilsky, Ph.D.

Sponsored by: The Office of Research and Scholarship

his M.S. in Research Measurement and Statistics from Southern Connecticut State University.

David Matson is a Senior Associate Scientist in the Neuroscience Department at Amgen. He has over 17 years experience in an industry drug discovery setting, specializing in in vivo pharmacology. David's primary research focuses on in vivo models of nociception and clinical translation as well as high throughput electrophysiology. He received his B.S. degree in Experimental Psychology and Biology from Syracuse University and

Dr. Zaven Kaprielian is a Director and the Neuroscience site head at Amgen in Cambridge, MA (AMA). He joined Amgen in 2013 and currently manages several programs designed to generate novel pain therapeutics. Zaven also chairs the AMA External Outreach Committee. From 1995-2013, Zaven was a faculty member in the Neuroscience Department at the Albert Einstein College of Medicine in the Bronx, NY.
