Dr. Douglas Kay Symposium

November 18, 2017—Innovation Hall

OBJECTIVES

Inter-professional Approach to Address the Opioid Crisis in Maine

- Recall current opioid utilization in Maine
- Discuss potential inter-professional collaborators who can assist in pain management strategies
- Describe complimentary approaches to pain management in addition to pharmacotherapy
- List resources available to patients to improve self-care in pain management

0837-0000-17-134-L04-P

Non-Opioid Pain Management in the ED & Beyond

- Describe the pathophysiology of pain
- Explain alternatives to opioids for pain management
- Discuss supporting literature for non-opioid pain options
- Describe appropriate medication therapy given a patient case

0837-0000-17-135-L01-P

Sensitive Counseling in a Community Setting

- List ways to enhance communication with patients of varying backgrounds
- Recall important opioid warnings
- Explain treatment agreements and their place in community pharmacy practice
- Discuss how pharmacists can play a key role in the patient's pain management team

0837-0000-17-138-L04-P

Teaching IPE: How to Implement Inter-professional Practice in the Work Place

- Recall the four IPE Core Competencies
- List IPE opportunities in their current practice
- Identify other health professionals in their practice to collaborate in patient care

0837-0000-17-133-L04-P

Naloxone: Healthcare Professionals' Training Guide for Administration and Dispensing

- Explain the impact of the opioid epidemic in Maine
- Identify individuals who are at risk for opioid overdose
- Discuss the pros and cons for each formulation of naloxone
- Explain the 2017 Maine laws and legal requirements for pharmacies surrounding dispensing naloxone to the public
- Describe proper administration techniques for the dispensed formulation

0837-0000-17-132-L01-P
