Alfond 304
UNE, Biddeford Campus

Lunch will be provided

Hosted by: Edward Bilsky, Ph.D.

Sponsored by: The Center for Excellence in the Neurosciences and
COM Biomedical Sciences

Dr. Richard Feeney is a native New Englander. Raised in Simsbury, CT, he received his undergraduate degree from Bowdoin College, in Brunswick, ME where he was recognized as a Sarah and James Bowdoin Scholar for academic achievement.

He worked first as a schoolteacher in Maine before pursuing a career in medicine. He received his medical degree from the University of New England College of Osteopathic Medicine, in Biddeford, ME, where he was elected president of the Psi Sigma Alpha Honors Society and was awarded the Dean's Research Fellowship to pursue basic science research in headache.

He completed his residency in physical medicine and rehabilitation at Harvard Medical School/Spaulding Rehabilitation Hospital before seeking subspecialty training in pain medicine. While in residency, he completed a program at McMaster University, Hamilton, Ontario, in contemporary medical acupuncture. He then completed a fellowship in pain medicine at University of California Davis where he was trained in the comprehensive care of patients suffering in pain.

Personally, Dr. Feeney is an avid runner, hiker, and cross-country skier. He enjoys challenging himself in sprint triathlons. Outside of athletic pursuits, he can be found spending time with his wife and son, steaming lobster, and cheering for the Red Sox.
