CC:

Dear, dear Donna - What a huge surprise I had a few days ago when Claire called. She had finally tracked me down! I could have been a big help if only I had known she was looking for me.

But more, I wish I could express the joy I felt when she told me about you. And, that I still feel. I am truly bursting with happiness for you. Frankly, I don't recall specifically what she said you were doing when I asked about you, but I do know that it's important.

I have been a fine art photographer since '83 and thoroughly enjoying this new path in my life. I am in some local galleries and have won a number of awards in competitions I've entered.

I would love to hear from you. Continued success. Fondly, Joanne Murphy
(CO, Long Binh, in case you've forgotten)
