P.S. I also thank Blomfield for
Totally wrong

Dear Donna,

I'm sorry. I just cannot vote for this. I was led to believe that the 400 slot machines would be taken from Penn National & had already been approved. I have learned that it is an additional 4%. I just cannot go there. I know how sincere you are but I just cannot go against my beliefs.

Donna
I've thought further about your slots bill. I will not be a cosponsor. I believe in your fairness argument. I also let me add that I appreciated our chat yesterday about a need for a SEAT AT The table on Economic Devel. C.

Donna
my first Affirmative
vote on any slots-type
bill. Congrats!

Rep Young:

I can't support the bill
with the present license fees
as I feel they aren't fair.
Would you consider an
amendment to the bill?

Don -
any license issue
can be amended at a later date.

Donna -

I'm glad for you, but I
will always vote against
gaming as I feel it
hurts those who are most
financially troubled.
