Dr. Erik Poulsen is a post-doc at the Department of Sports Science and Clinical Biomechanics, University of Southern Denmark and works part in private practice as a chiropractor. He received his DC from Palmer College of Chiropractic in Davenport, USA in 1989, his MSc from University of Portsmouth and Anglo-European College of Chiropractic, England in 2006 and in 2012 he completed his

PhD at the Faculty of Health Science, University of Southern Denmark. His clinical experience is collected from working and studying in Denmark, United Kingdom and the USA. The last 12 years he has had a specific research and clinical interest in hip disorders, particularly hip osteoarthritis. In 2014, he received the Jean Robert Research first prize award at the European Chiropractors Union Convention held in Dublin, Ireland.
