Samaritan Medical Center is located in the beautiful Thousand Islands Region of Upstate New York. Ft. Drum is located nine (9) miles away, and Samaritan Medical Center is the hospital for all of the military men and women as well as their dependents.

All disciplines are taught one on one by attending physicians. During the IM Program, the Residents receive training from six (6) Hospitalists as well as work in an IM Clinic setting with an Internist. Included are rotations in the ICU/CCU, Pulmonary Care, Nephrology, Neurology, Cardiology, etc.

OMT is demonstrated, encouraged and required. Weekly didactic sessions and OMT clinics are held in order for you to be able to increase your skills.

Samaritan Medical Center is currently undergoing a \$4.5 million construction building project which will provide a new ER, OR, patient rooms and medical offices. The goal of the Program is to produce an Internal Medicine physician to whom we would immediately entrust our own family members and who is someone we would actively seek to employ.
