

Elective Preceptorship/Clinical Experience OMS 1 & 2

Students in the preclinical years may arrange preceptorship experiences with individual physicians on an elective basis during independent schedule time or vacation time. These experiences may not be arranged during class time. Students may access these experiences through the following means:

- ï All physician preceptors in clinical settings must be licensed and board certified.
- ï Clinical elective preceptorships are overseen by the Clinical Experiences Director and the Scheduling Coordinator.
- ï The Scheduling Coordinator keeps a list of area physicians who allow students to rotate with them. Students may contact the coordinator to find a physician to shadow.
- ï A student may utilize their own connections or known physicians or medical provider.
- ï A student may begin the process by filling out the *Preceptorship Affiliation Registration and Approval Form*.
 - In some cases, this serves as the affiliation agreement.
 - Some sites require a fully executed affiliation agreement which must be completed prior to the student attending the clinical experience.
- ï In order to complete elective preceptorships, students must be in good academic standing.
- ï Students must be up to date on vaccination requirements as required by the clinical site where they will be working. Students must also be compliant in HIPAA and OSHA requirements.
- ï Upon completion students will fill out an evaluation form for their clinical experience.

CLINICAL EXPERIENCES AFFILIATION REGISTRATION and APPROVAL FORM

UNECOM MEDICAL STUDENT

Submit This Registration in Advance of the Intended Start of your Preceptorship
The Clinical Experience Office **MUST** approve every preceptorship in advance of its start
for you to be covered by professional liability insurance
